

CA ARCserve® Backup At a Glance

MODULES

Provide technology to protect a server based on the type of server—File, Application, Database and eMail.

- Great value over purchasing individual components
- License per server simplifies pricing and budgeting
- Protects against future configuration changes

CA ARCserve® Backup Per Host Virtualization Licenses

Provides Unlimited Virtual Machine Protection[†]:

- Agent for Virtual Machines
- Open File Agent for Virtual Machines

[†]One license per physical host

NOTE: To Protect the physical host servers, purchase the appropriate client agent.

MODULES PLUS

Provide a combination of CA ARCserve Family products to protect a server based on the type of server—File, Application, Database and eMail.

- Great value over purchasing individual components and products
- Everything needed is included—eliminates missed components
- Protects against future configuration changes

CA ARCserve® r16 Modules

CA ARCserve® Essentials File Server Module

CA ARCserve® Backup

- CA ARCserve Backup r16 Base
- Central Management Option
- Disaster Recovery Option
- Windows Tape Library Option
- Windows SAN Option
- Windows NDMP NAS Option
- Windows Enterprise Module
- Windows Ent Option for AS/400
- Client Agents for Windows, Linux, UNIX, FreeBSD, MAC OS X, Open Files for Windows
- Windows Disk Staging Option
- Multiplexing
- User Profiles
- Password management
- Audit log
- Multi-streaming
- Serverless Backup Option
- Windows Image Option
- Windows Ent Option for ACSLS
- Windows Ent Option IBM 3494
- Raw Disk Backup Support
- Media Management Option
- Enterprise Option for VSS Hardware Snapshot

^{*} Virtual machines are protected through Windows Client Agent & Open File Agent.
^{*} Unix, Linux, Data Movers are not included.

The CA ARCserve® Essentials File Server Module is licensed per single server instance. All Agents and Options except the OS/Client are Windows only.

CA ARCserve® Standard Database Module

- Essentials File Server Module
- MS SQL Agent
- Oracle Agent - Windows/UNIX/ Linux
- Sybase Agent
- Informix Agent

CA ARCserve® Advanced eMail Module

- Essentials File Server Module
- Exchange Agent
- Lotus Notes Agent

CA ARCserve® Enterprise Application Module

- Essentials File Server Module
- SAP R/3 for Oracle Agent
- MS SharePoint Agent

KEY FEATURES

INTEGRATED DATA DEDUPLICATION Improves the economics of backup and recovery by enabling longer retention periods, providing a cost-effective means of reducing storage, protecting critical data and integrating, configuring and managing data deduplication in the existing backup environment.

ARCHIVE DATA TO DISK, TAPE, OR CLOUD to reduce data being backed up resulting in reduced backup windows, network traffic and storage management costs.

INTEGRATED BACKUP COPY TO CLOUD STORAGE Migrates backup data to cloud storage as part of a D2D2C backup policy for additional storage or recovery locations.

SNAPSHOT AND FILE-LEVEL BACKUP INTEGRATION Provides the ability to use a combination of snapshot-based backups (ARCserve D2D) and traditional file-based backups (ARCserve Backup) that populate a single backup catalog for quick and easy restore anywhere - and are all monitored via a single console window.

SYNTHETIC FULL BACKUP Performs a full backup and then incremental backups are synthesized to create a full backup of the data as it originally appeared at the recovery point enabling you to recover as if each backup was a full backup - resulting in faster and easier recovery of data.

MIGRATE ARCSERVE D2D BACKUPS TO TAPE via ARCserve Backup console - Clone ARCserve D2D backups to tape media, catalog with ARCserve Backup and enable recovery via the ARCserve Backup console to provide long-term off-site storage for ARCserve D2D backups and single point of management.

INFRASTRUCTURE VISUALIZATION Easy to read network diagram view of the entire environment including all of the servers, storage, and other devices showing how they relate to each other and to the CA ARCserve Backup media server(s).

GLOBAL DASHBOARD Reduce management complexity with worldwide operational monitoring and SRM reporting across all offices from a single location to help save time and resources.

CA ARCserve® r16 Modules Plus

CA ARCserve® Essentials File Server Module Plus

CA ARCserve® Backup Base Product

- Centralized management
- Resource Management
- Security Management- AES 256 3-Tier Encryption
- Virtualization Management- Protects Virtual Machines^{*}: Microsoft Hyper-V, VMware, Citrix XenServer
- Storage Network Management
- Media Management
- Advance Reporting
- All Platform Client Agents

^{*} Virtual machines are protected through Windows Client Agent and Open File Agent.
^{*} Unix, Linux, Data Movers are not included.

CA ARCserve® D2D Standard Edition

- Protection for Server Systems – Windows 2003, 2008, SBS Operating Systems
- Protection for Virtual Servers
- Bare Metal Recovery
- Application Consistent Point-in-Time Snapshots (i² technology™)
- End User Search and Restore
- Use with CA ARCserve® Backup r16
- Use with CA ARCserve® Replication r16

The CA ARCserve® Essentials File Server Module is licensed per single server instance. All Agents and Options except the OS/Client are Windows only.

CA ARCserve® Standard Database Module Plus

- Essentials File Server Module
- MS SQL Agent
- Oracle Agent - Windows/UNIX/ Linux
- Sybase Agent
- Informix Agent
- Replication (2 nodes)

CA ARCserve® Advanced eMail Module Plus

- Essentials File Server Module
- Exchange Agent
- Lotus Notes Agent
- Replication (2 nodes)

CA ARCserve® Enterprise Application Module Plus

- Essentials File Server Module
- SAP R/3 for Oracle Agent
- MS SharePoint Agent
- Replication (2 nodes)

The CA ARCserve D2D Standard Edition is replaced with the CA ARCserve D2D Advanced Edition for the Standard Database, Advanced eMail and Enterprise Application solutions which includes D2D Options for Exchange, SQL, and Hyper-V.

NOTE: Products can be purchased as Modules or separately, through component pricing (a la carte). Component based purchases and Modules can be mixed and matched.

STEP 1: Select the Proper Base SKU (ROW USD)

CA ARCserve® Backup r16 for Windows Component Licenses

(Formerly A la Carte Pricing)

CA ARCserve Backup r16 for Windows	SKU	Upgrade from Prior Version	Competitive Upgrade	Maintenance Renewal
CA ARCserve Backup r16 for Windows (Base Product)	BABWBR1600W00	BABWUR1600W00	BABWCU1600W00	GMRBABWB10S00

CA ARCserve Backup r16 for MS Windows SBS Premium Edition	BABWBR1600W23	BABWUR1600W23	BABWCU1600W23	GMRBABWB20W23
CA ARCserve Backup r16 for Linux/ UNIX for SAP R/3 for Oracle				
CA ARCserve Backup r16 for Linux for SAP R/3 for Oracle	BABWBR1600W82	BABWUR1600W82	BABWCU1600W82	*
CA ARCserve Backup r16 for UNIX for SAP R/3 for Oracle	BABWBR1600W81	BABWUR1600W81	BABWCU1600W81	*

* Please refer to the price book for the specific Linux/ Unix version SKU

Example of how to create the right SKU number:

- Select the appropriate base Product SKU or Maintenance Renewal SKU.
- Add the corresponding 2 digit code for either a 1 year or 3 year maintenance term (OLP or GLP).
e.g. CARMESB160W00 C4 = CA ARCserve Essentials File Server Module with 1 Year Maintenance (OLP).
e.g. GMRBABWB10S00 GJ = CA ARCserve Backup (Base Product) 3 Year Maintenance Renewal (GLP).
