Mindjet 5Plus License Program

Mindjet has a variety of programs available to help with implementation and rollout of Mindjet products and services. The Mindjet License Program offers a perfect fit for single users, small to medium-sized businesses and global corporations. Today, more than 1500 European firms count Mindjet as their partner in providing company-wide solutions. Benefits of the Mindjet License Program include:

- Ease of decision making regarding software and license management
- Secure long-term cost savings through effective license procurement
- Optimal installation and administration models
- Scalability to meet your requirements
- Suitable pricing for larger quantities
- Facilitates Sarbanes-Oxley (SOX) Compliance
- Maximum flexibility
- Optimized procurement process

1. Mindjet 5Plus License Program – Corporate solutions one step ahead

The Mindjet 5Plus License Program offers companies ordering at least 5 licenses software rollout benefits such as the MindManager Admin Setup package and a single license key. Additional savings are realized with initial orders of at least 10 licenses. Participation in the 5Plus License Program is possible with an initial order of at least 5 licenses and requires the purchase of Mindjet Software Assurance & Support.

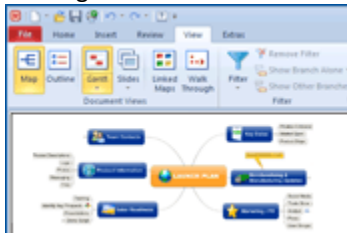

Your **initial** Mindjet MindManager software full license **order** determines the 5Plus License Program purchase level for one year. The Mindjet 5Plus License Program enables you to purchase various Mindjet license products and facilitates their administration. Simply add up the total number of licenses you require.

Additional licenses of products available under the 5Plus License Program can be purchased, individually or in multiples, at the level price determined by the **initial order** during the period covered by the license program. Companies can reduce their software expenses while getting the most from their investment in Mindjet desktop products. The Mindjet 5Plus License Program is the best solution for companies wishing to purchase a minimum of 5 licenses in their initial order. Customers receive a license certificate enabling them to purchase at the license program level from their preferred software reseller.

This program is recommended for small- and medium-sized businesses requiring at least 5 licenses.

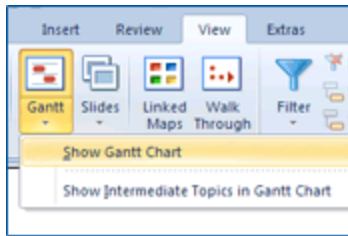

Mindjet MindManager9

Conquer information overload, simplify project planning and communicate more clearly with MindManager software. MindManager information maps provide an intuitive visual framework that foster clarity, innovative thinking and communication to improve business results.

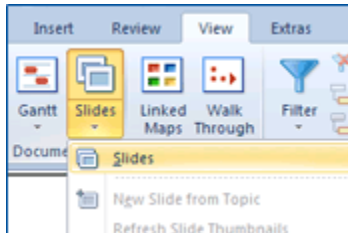

Industry-leading Information Visualizations

Easily lay-out, organize and work with ideas and information in a wide variety of interactive visual formats including information maps, outlines, Gantt charts, organization charts, tree diagrams and a special brainstorming mode.

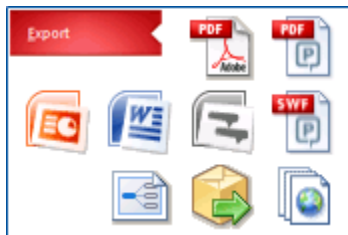

Project & Task Management

Improve project planning by brainstorming and tracking task details, automatically calculating summary tasks and optimizing resource utilization. View MindManager, Outlook and SharePoint* tasks in the new synchronized Gantt view or export tasks to Microsoft Project. Stay on top of deadlines and tasks with synchronized topic alerts.

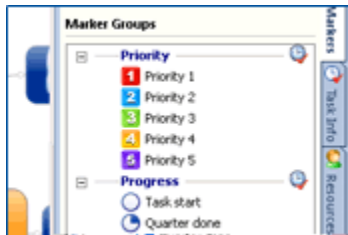

Information Map Presentations

Showcase your ideas and increase engagement using MindManager's automated presentation view or customizable slide shows. With MindManager's dynamic presentations, you'll easily tailor the level of details presented for each audience and capture critical feedback right in the presentation.

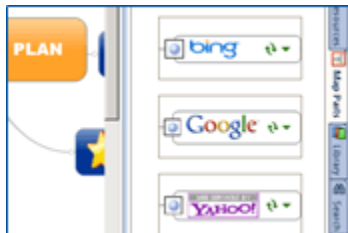

Integrations & Sharing

Save time and benefit from powerful integrations. Access and update Microsoft Office files within MindManager's integrated browser. Import from Microsoft Word and Project. Export to Word, Project or PowerPoint. Display dynamic Outlook or Excel content. Export web pages, images, PDF files and more. Or, share hosted interactive map files with anyone on the web even if they do not have MindManager.

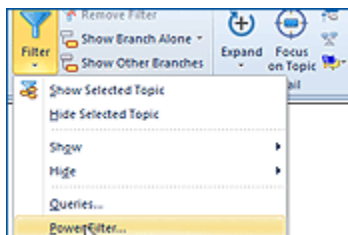

Capture Content & Add Context

Easily add hyperlinks, attachments, notes, images, and spreadsheets to provide additional levels of details. Quickly drag and drop content to reorganize it and provide structure. Use icons, tags, topic shapes, callouts, boundaries, colors, topic sorting and numbering to provide additional context.

Interactive Dashboards

Create powerful dynamic Microsoft Outlook dashboards to automatically display (and update) contextually relevant emails, tasks, contacts, notes and appointments. Populate branches with desktop or network folders & files for easy access. Or, perform web searches like Google or Bing with results appearing directly in your map.

Navigation & Viewing Controls

Easily navigate and control the levels of details displayed with powerful features like topic focus, show or hide branch, collapse map, quick filters and advanced power filters. Automatically fit or balance your map within the screen or use the mini-map view to navigate large maps.

Map Sharing Community
Share map templates with the extensive Mindjet community.

Mindjet Software Assurance (MSA)

Mindjet Software Assurance & Support with the 5Plus License Program
