

## Mindjet EMEA License Program

Mindjet has a variety of programs available to help with implementation and rollout of Mindjet® products and services.

The Mindjet License Program offers a perfect fit for single users, small to medium-sized businesses and global corporations. Today, more than 1500 European firms count Mindjet as their partner in providing company-wide solutions. Benefits of the Mindjet License Program include:

- Ease of decision making regarding software and license management
- Secure long-term cost savings through effective license procurement
- Optimal installation and administration models
- Scalability to meet your requirements
- Suitable pricing for larger quantities
- Facilitates Sarbanes-Oxley (SOX) Compliance
- Maximum flexibility
- Optimised procurement process

### 1. 1. Mindjet 5<sup>Plus</sup> License Program - Corporate solutions one step ahead

The Mindjet 5<sup>Plus</sup> License Program offers companies ordering at least 5 licenses software rollout benefits such as the MindManager Admin Setup package and a single license key. Additional savings are realised with initial orders of at least 10 licenses.

Your **initial order** determines the 5<sup>Plus</sup> License Program purchase level for one year. The Mindjet 5<sup>Plus</sup> License Program enables you to purchase various Mindjet license products and facilitates their administration. Simply add up the total number of licenses you require.

Additional **MindManager Pro 7, MindManager 7 Mac and Mindjet JCVGantt licenses can be purchased subsequently at the purchase level price determined by the initial order**, individually or in multiples, during the license program coverage period. Companies can reduce their software expenses while getting the most from their investment in Mindjet desktop products. The Mindjet 5<sup>Plus</sup> License Program is the best solution for companies wishing to purchase **5 to 99 licenses** in their initial order. Customers receive a license certificate enabling them to purchase at the license program level from their preferred software reseller.

This program is recommended for small- and medium-sized businesses requiring at least 5 licenses.

**Mindjet 5<sup>Plus</sup> License Program Example:**

Your initial order consists of 60 MindManager Pro 7 licenses and 20 Mindjet JCVGantt licenses. In total you have purchased 80 Mindjet licenses and are in **Level 50-99**. 3 months later, you purchase an additional 10 MindManager Pro 7 licenses. The **Level 50-99** pricing also applies to these licenses.

**5<sup>Plus</sup> Levels**

Place your initial order, benefit from a single license key and secure a rapid return of investment.

Level	Single License Key	Discount
5-9 Licenses	X	
10-49 Licenses	X	X
50-99 Licenses	X	X
More than 99 Licenses	See Mindjet Volume License Program	See Mindjet Volume License Program

**Mindjet 5<sup>Plus</sup> Product Portfolio**

<b>MindManager Pro 7</b> <b>MindManager 7 Mac</b> <b>Mindjet JCVGantt</b> <b>Upgrade to current Mindjet MindManager version</b> (from previous version)	Upon release of a newer version, its predecessor remains available for up to 6 months.

### Maintenance and Support

A Maintenance and Support (M&S) Plan is the perfect addition to the Mindjet 5Plus License Program. During the coverage period of the Maintenance and Support plan, eligible participants are entitled to product upgrades, updates and service pack announcements, live helpdesk assistance, and other benefits. This is the most reliable and economical way to stay up-to-date with product releases while avoiding higher upgrade costs in the future. Furthermore, an M&S plan allows participants to install previous versions of the software. Maintenance and Support enables precise IT-cost planning and flexible license management in a heterogeneous software environment. Further information can be found online at [www.mindjet.com/support](http://www.mindjet.com/support).

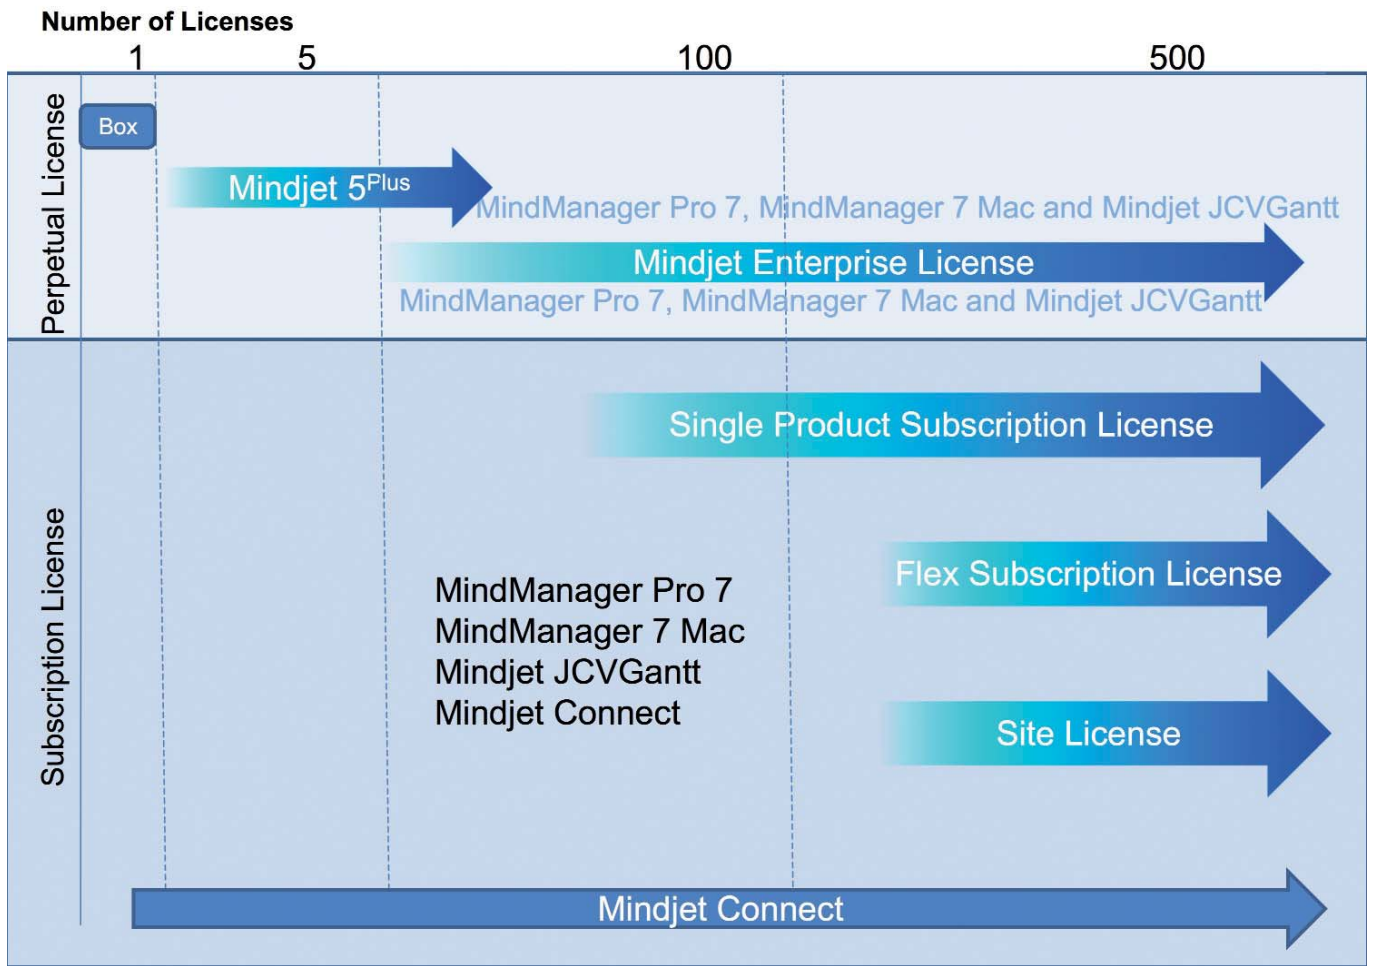

## 2. Mindjet Volume License Program

The Mindjet Volume License Program is for those companies requiring at least 100 licenses. Both perpetual and subscription license models are available as well as flexible license models to meet your license requirements. We work together with your preferred software reseller to provide your company with the best possible license model, also for global deployment. Mindjet Volume License Program contracts are between the customer and Mindjet; the procurement is through the software reseller.

### Mindjet Volume License Program Options:

- **Mindjet Enterprise License Program:** Starting at 100 licenses, reporting possible. Maintenance and Support recommended.
- **Subscription:** Subscription licensing with a term of 1 to 5 years. Maintenance and Support included.
- **Flex SL:** Quarterly alignment of the product portfolio. Subscription licensing on a quarterly basis. Maintenance and Support included.
- **Site License:** General license for the entire company.

The Mindjet Volume License Program is recommended for companies requiring at least 100 licenses.

### 3. Education and Government Conditions
