

NEW FEATURES IN ENDNOTE X4

EndNote X4 continues a 22-year history of innovation that translates to your publishing success in record time. Not only does EndNote X4 save you time by removing steps, it also puts more action in your library dashboard—right where you want it. The full text locator joins blazing online searches with the Cite While You Write (patent pending) technology to deliver all the high performance you could possibly want in an easy-to-use bibliography software and more.

IMPORT AND SEARCH IN IMPORTED PDFS

IMPORT ONE FILE OR A FOLDER OF PDFS INTO YOUR ENDNOTE LIBRARY.

CREATE RECORDS FROM PDF FILES EASILY

EndNote extracts bibliographic data and attaches the PDF to the record.

COLLABORATE MORE WITH ENDNOTE WEB

Transfer up to 10,000 references between the Web and your desktop.

Manage personal publication lists for the free ResearcherID author community.

Sort reference lists by:

- Times Cited
- Date added to library
- Date modified

View group affiliations for each reference in the list.

CITE WHILE YOU WRITE™ FEATURES

Link in-text citations automatically to the bibliography in Microsoft® Word.

Meet the complete APA 6th style requirements.

Format footnotes using customizable short forms.

Access frequently used functions in one place with the combined Edit & Manage Citations command.

View a citation report of references cited in a Word document with a new auto-group in the EndNote library.

Cite While You Write in Microsoft Word 2010.
