

VOOM DRIVEWIPER

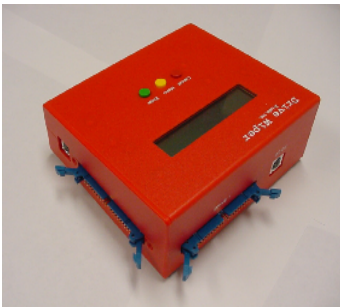

SECURE HIGH PERFORMANCE DATA DESTRUCTION

Your secure data destruction needs are increasing, hard drive capacities are increasing, but your ability to clean hard drives is not keeping pace. The VOOM DriveWiper breaks the speed barrier at up to 8 GB per minute (2 drives at once). Use the VOOM DriveWiper and wipe ALL data off of hard drives FAST!

EASY TO USE, EASY TO EXPAND

VOOM DriveWiper is incredibly easy to use. A simple 3 button interface and straightforward easy to understand display. DriveWiper works very well with laptop adapters and SATA converters enable secure data destruction on any ATA or SATA drive as quickly as possible.

DriveWiper is not only fast, it is easy to use. Wiping drives in place, without removing them from their host, has never been so easy. And for wiping a bunch of drives, just use several DriveWipers –get done faster, and several DriveWipers are less costly than buying the big cloners, they are easier to use, and far more portable.

POWER, PERFORMANCE AND PRICE IN ONE PACKAGE

DriveWiper combines the best performance available, advanced features, ease of use, very light weight, and low price for a state of the art offering that breaks the Drive Wiping speed barrier.

Capabilities

- Wipe all data off of one drive at up to 5.5 GB per minute
- Wipe all data off of two drives at up to 8 GB per minute
- Automatically unlocks and wipes Host Protected Areas
- Wipe laptop drives or SATA drives with optional plug in converters
- Supports single pass (fastest) and multi-pass algorithms used by the NAVY and DOD

Benefits

- Cut your drive wiping time in half
- Very light weight – less than a pound, plus the laptop style power supply
- Manual is included, but it is so easy to use that most users never open the manual
- Simple, fast, portable data destruction

DriveWiper:

Drive Wiper Kit

(includes case with room for 5 HDD's, extra length cables, SATA and laptop convertors)

VOOM DRIVE WIPER KIT

THE DRIVE WIPER ADVANTAGE

- Speed. Nothing else is as fast as the DriveWiper
- State of the art functionality with entry level pricing
- Optional converters expand the capabilities of DriveWiper without the need to replace the entire unit
- The industry's easiest to use interface means you can unpack and begin using DriveWiper immediately

About VOOM Technologies, Inc

VOOM delivers state of the art, universal, affordable storage solutions exclusively through business partners that provide government and companies of all sizes first class storage capabilities without huge system costs or complexities.

SPECIFICATIONS

Standard Features

- Proven Hard Drive Controller Engine
 - Utilizes proven HardCopy engine to insure high performance and complete wiping.
 - Up to 5.5 GB per minute sustained data transfer rates – go AT the speed of the drives!
- Dynamic Capacity
 - DriveWiper will handle hard drives up to 2 TB in capacity
- Approved HDD Wiping Algorithms
 - DoD 5220.22-M Single Pass
 - NAVSO P-5239-10 2 Pass
 - DoD 5220.22-M 4 Pass
 - NAVSO P-5239-10 8 Pass

DriveWiper Kit Standard Features

- DriveWiper
- Two standard parallel ATA cables
- Two extra length parallel ATA cables (30")
- Two SATA converters
- Two SATA cables
- One laptop converter
- Carrying case
- One DB9 cable (for feature upgrades)
- Two Cable Savers – attach to the end of parallel ATA cables to prolong life and ease cable strain

Maintenance

- First year hardware and firmware maintenance included
