

Customer Exclusive: Unlock FREE Platform Upgrade with Veeam Universal License

Exciting news! Veeam is offering a NEW promotion: Customers with perpetual Socket contracts will receive a FREE Platform Upgrade when they migrate to Veeam Universal License (VUL) Subscription until June 30, 2024.

In addition to ALL the [benefits of VUL](#), you'll receive huge capability upgrades included in Veeam's Advanced or Premium packages.

Migrating customers will be upgraded to the next platform edition at no additional cost for their purchased term:

- Veeam Data Platform (VDP) Foundation will upgrade to VDP Advanced
- VDP Advanced will upgrade to VDP Premium

Upgrade Benefits

VDP Foundation to VDP Advanced Upgrade Benefits

- **Veeam Threat Center¹:** Introduced as a new component in V12.1, the Veeam Threat Center includes an integrated, real-time assessment of security postures throughout Veeam Data Platform. Enterprises can now confront and neutralize security threats in real-time before they evolve into substantial data breaches, protecting sensitive data.
- **YARA Rules¹:** Pinpoint identified ransomware strains and prevent the reintroduction of malware into environments using YARA content analysis.
- **Enhanced Key Management¹ for Backups (KMS):** Embrace security best practices for your backups with centrally managed backup encryption keys using KMS.
- **ServiceNow Integration:** Veeam's system instantly reports backup inconsistencies into ServiceNow and customer preferred SIEM tools so customers can act fast and reduce further risk to their data.
- **Veeam ONE Real-time Monitoring, Alerting, and Advanced Reporting:** Veeam ONE delivers instantaneous surveillance of backup processes with intelligent diagnostics, virtual ecosystems, and the entirety of supported Veeam Backup & Replication infrastructure. These insights help ensure diagnostic visibility and compliance with capacity planning tools.

VDP Advanced to VDP Premium Upgrade Benefits

- **Automated Disaster Recovery Orchestration:** This feature enables the systematic automation of multi-faceted disaster recovery protocols, minimizing the propensity for human error during the disaster recovery (DR) sequence to ensure a precise recovery process.
- **Streamlined DR Testing:** This functionality promotes a non-intrusive assessment of DR plans, validating their efficacy without incurring detrimental effects on active production systems. This is integral for organizations striving to fulfill internal and external compliance mandates.
- **Assurance Reporting:** Veeam Recovery Orchestrator (VRO) generates comprehensive reports that substantiate the preparedness of DR configurations, granting stakeholders an informed perspective on an organization's operational resilience.
- **Centralized Management:** VRO offers a unified interface overseeing DR initiatives across multiple Veeam Backup & Replication servers, enhancing the simplicity of supervising and orchestrating an organization's comprehensive DR strategy.
- **RESTful API Support:** The provision of RESTful API support within VRO allows seamless integration of the DR orchestration engine with diverse third-party systems. By increasing automation capabilities, IT teams can focus more on strategic, value-adding endeavors within the organization.

Interested in this FREE Upgrade? Reach out to your Veeam representative who will help facilitate the upgrade.

¹V12.1 is required to access these features.

Terms and Conditions: Offer available within Denmark, Sweden, Finland, Norway, Iceland, Greenland, Aland Islands, Faroe Islands, Svalbard And Jan Mayen Islands. This offer is only applicable to VDP Foundation or Advanced perpetual socket contracts either expired or due to expire up until December 31, 2027. With this promo, migrating contracts will be upgraded to the next platform edition at no additional cost for the purchased term (1 year up to 3 years). For expired contracts only: backdated maintenance and reinstatement fee are waived. No other discounts, incentives or waivers are included in this offer. Veeam reserves the right to modify, extend or cancel this offer at any time. Future renewal to be priced at the upgraded platform edition, with price protection following migration policy. This offer is valid until March 31, 2024.
