GRAYKEY
by GRAYSHIFT

UNDERSTANDING GRAYKEY
for Command Staff

Today, virtually every criminal investigation involves digital evidence – specifically evidence from mobile devices. But just because mobile devices are more present in criminal investigations does not mean that every law enforcement agency is equipped to process them. Having the proper tools to access and extract critical evidence from mobile devices could be the difference between developing leads immediately, obtaining a conviction, and a criminal escaping justice. Ensure your agency is prepared by using this guide to learn more about GrayKey and how it can benefit your agency.

WHAT IS GRAYKEY?

GrayKey is a state-of-the art mobile digital forensics access tool that quickly accesses mobile device data by unlocking or bypassing the device passcode so you extract large amounts of data quickly, allowing you to obtain more comprehensive and detailed evidence you can use to kickstart your investigations.

WHO NEEDS GRAYKEY?

Any agency that encounters mobile devices in investigations can benefit from GrayKey.

GrayKey can help you:
- Save time and kick-start your investigations faster by accessing data in record time
- Solve more cases by getting the evidence you need from mobile devices
- Streamline chain of custody for mobile devices
- Protect your community and help your department by gaining real time information when speed is essential
- Bring closure to victims by getting in-depth data that helps bring criminals to justice

WHAT MAKES GRAYKEY DIFFERENT?	Unlike other extraction tools, GrayKey can access devices faster and extract more data from locked and encrypted mobile devices – either on site or on scene. GrayKey also integrates easily with other forensic analysis products which reduces your need to buy additional tools.
HOW TO PURCHASE GRAYKEY?	GrayKey licensing options are designed to give you the flexibility and customization you need to build a mobile forensic solution to fit your needs. Whether you are a small or large agency or need an online or offline solution, we have cost-effective options to help you acquire the technology you need. Email **sales@grayshift.com** to learn more about GrayKey and to discuss which GrayKey licensing options are best for your agency.

> "*We've saved hundreds of thousands in outsourcing costs since implementing GrayKey in 2018.* We are able to access more devices, obtain more data and ultimately produce more evidence at court which only improves our convictions. Plus it saves us bags of time as it's almost entirely automatic."
>
> - Forensic Examiner, State & Local Government
> TVID: 95E-365-13C

85% of surveyed GrayKey users said *they on average save years per investigation* when using GrayKey.
TVID: B02-58A-2FE

> "I am the sole examiner at Clayton County Police Department and I provide my services to outside agencies as well. *Without GrayKey, I wouldn't be able to do complete my extractions as rapidly or as completely.* Not only does GrayKey work fast, but it works WELL! I am able to get *more data more quickly* than with any other extraction method."
>
> - Jason Wilkins, Forensic Examiner, Clayton County Board of Commissioners
> TVID: 16C-4E2-7A7

> "It's a unique tool with a *great success rate of unlocking iOS devices*. Also consent extractions deliver more extensive results than our conventional tools (XRY / UFED)."
>
> -Digital Forensics Investigator, Federal Government
> TVID: 465-4C2-643

> "GrayKey is the *single-most transformative tool* we've implemented in 10 years."
>
> - Danny Mottet, Oklahoma State Bureau of Investigation, TVID: D25-BA1-897

Obtaining critical evidence is essential when trying to confirm or exonerate a suspect's involvement with a case, finding a missing person, or rescuing a victim. With GrayKey, the data speaks for itself which helps your investigative team separate fact from fiction and present evidence in court accurately and with confidence.
